Feedback Analysis

The IQAC collects feedback annually from all the stakeholders, i.e. the students, parents, alumni and teachers. The feedback collection is done by the feedback committee.

Objectives:

The main objective of the feedback process is the overall development of the institution. Feedback process is very important for improving the academic and non academic environment of the college. The feedback helps not only in revealing issues related to students but also helps to highlight the fields in which the work deserves praise.

Some of the major objectives are:-

- To identify the areas for the development of the institution.
- To improve the academic and non-academic environment of the institution.
- To give students a freedom to express their views and opinions and also their suggestions.
- To highlight the areas in which the institution has done well.

Methodology:

The Tutor Guardians help to implement the feedback process and provide feedback forms to all students. They also help in collecting, analyzing and preparing reports of the feedback. The feedback committee then hands over the details to the IQAC for further action. Based on the feedback reports and its analysis, the IQAC submits the details to the head of the institution and in the meeting of the staff council the decision is taken.
