**7.2.1: Two best practices successfully implemented by the Institution as per NAAC format**

## **BEST PRACTICE - I**

Title of the practice: **SAVING LIVES: STUDENTS AS HEALTH AMBASSADORS**

**OBJECTIVE:** - In the face of the fast moving dynamics of social, economic and technological changes, it is important to make the students aware of their social responsibilities and humanitarian duties. The college aims to carve socially responsible citizen, especially in the health domain. The college envisions churning out individuals who are alert, aware and vigilant students when it comes to health and related aspects. The institution aims to prepare the students for emergency situations wherein they are equipped to help not only themselves, but also extend a helping hand to others.

**CONTEXT:** - As the college is the largest government institute in the district, it is vigilant towards its role of developing a holistic personality of the students. It takes numerous efforts in this direction through various programs that are organized all the year round. As Sehore is a region that comprises of communities from marginalized and educationally backward groups who are not aware about health and related issues, the college takes the onus of imparting education on this topic. It is noteworthy that both facets of health that is – physical and mental are taken into account by the college. The college has shown an exemplary commitment in the discharge of this social responsibility. It is reflected in the practices conducted throughout the year where the students take an active part as health ambassadors. Since many students are mostly the first graduates of their families, when they are given such education they build a solid bedrock of health awareness for their future.

**THE PRACTICE:** Blood donation is one of the key practices followed in the college. The surrounding villages/tehsils etc. depend upon the Civil Hospital at the district headquarters for all medical aid. As in all dire medical needs blood is required, the college contributes towards the same. Every year, the college staff, both teaching and non-teaching participate in blood donation drives. It is noteworthy to mention that, the students also register their participation in large numbers for the noble cause. The enthusiasm shown by the students and teachers in these drives is a reflection of their sincere commitment to their social responsibilities. Participation of girls in large numbers is a testimony to this.

Celebration of the Road Safety Week is a step towards carrying out social responsibility of the college. Our students take part in the activities of national Road Safety Week to spread awareness on the steps needed for promoting greater safety on the roads. During this week- the students work in tandem with the traffic police of the city and perform different activities for enhanced road safety. Sehore being a small city, our students thought it essential to educate people on the rules pertaining to the road. It is in programs like these that the students have a direct encounter with the community at large and provides a platform proper to the students to connect the theoretical lessons with practical learning. The students encourage the passers-by to wear helmets and follow traffic signals. They also demonstrate how to cross the road using Zebra crossing. In addition to this, they also encourage the people to drive only after being given the driver's license so as to check rash driving and road accidents. As the city is witnessing a spurt the number of vehicles on road and increasing fatalities in the road accidents, it is important to enlighten the commuters on the importance of following traffic rules. The students also give a brief training on basic first-aid to be administered on the accident victims.

The corona pandemic was an unprecedented calamity. The college did its part in mitigating the disaster. Our student volunteers visited remote villages and made an attempt to connect with the people and clear their apprehensions about getting the vaccination. A street play was also organized at the Bhopal Naka. The college students visited the villages of Avantpura and Sewaniya to exercise the Cleanliness Campaign to fight the deadly virus. The students also took a pledge and administered an oath to others to be alert, vigilant and responsible in the war against Covid-19 and abide by the necessary protocol. Activities and programs were organized at regular intervals to raise awareness on the issue at the initial stages of the onset of the pandemic. The students of the college marked an active participation in the battle against the corona virus registering as volunteers under the 'Mai bhi Corona Volunteer' campaign. These students conducted many awareness rallies and campaigns with the local population being the focus group. They held posters and placards which pictured the awareness messages and chanted slogans. In these rallies, they spread awareness on the importance of donning face masks, using hand sanitizers, frequently washing hands, and maintaining adequate social distancing. Our student volunteers visited remote villages and made an attempt to connect with the people and clear their apprehensions about getting the vaccination. Addiction and intoxication are the evils gripping the modern day youth. It is important to spread awareness among the youth of the need to abstain from alcoholism as they form the chief human resource of the country. Several activities are organized regularly in order to check and curb addiction. Rallies were organized in the college which started from the college gate and moved towards the vicinity chanting slogans and flashing placards on the prohibition of alcohol consumption and addiction. A street play was also organized on the same theme to catch the eye of the audience and make them aware of the need to plunge into society. Several competitions - Speech, Poster making, Essay writing were organized to motivate people to abstain from / quit smoking, drinking or substance abuse. No Drug Abuse Week and International Drug Abuse Solution Day were celebrated in the campus and the message of de-addiction was circulated. The purpose of such programs is to raise awareness on the negative consequences of drinking - psychological, physiological and social disturbances that ensue from alcohol and drug consumption. People are also made aware of the constitutional directives against illicit drugs and drinks. The constitution of India under act 47, enjoins that The NSS and NCC students provide just the right leadership to other students in carrying the movement ahead.

**C.S.A. GOVT. P.G. COLLEGE SEHORE (M.P.)**

**NO DRUG ABUSE WEEK** ●

**EVIDENCE OF SUCCESS:-** It is remarkable that during the Covid-19 pandemic, this spirit of cleanliness helped the students navigate through the crisis. More than 3000 students have been vaccinated. Also, yoga and meditation practices have become a part of everyday life as they indulge in these activities on a regular basis. The practice helps the students maintain not only physical agility but also mental equilibrium. They are trained on tackling stress and Cleanliness, owing to these concerted efforts has become a way of life. The success of the practice is also evident in the students becoming more alert and vigilant while driving on the road and responding to the mishaps. The First Aid training has resulted in students keen on helping the accident victims by providing medical help and also donating blood if the need arises.

**PROBLEMS ENCOUNTERED:** The College encounters a few problems at multiple level in carrying out such programs. Many impediments stall the smooth running of various programs. Blood donation- in spite of motivating students and encouraging them to donate blood by coming in large numbers, the students express their apprehensions about the practice. Many students fear that donation of blood shall have a negative impact on their physical health and well-being and show hesitation in participation. It becomes an arduous task to allay the students' fears and to apprise them of the benefits of participation. Students hailing from rural areas are sometimes forbidden by their parents owing to the social taboo associated with it. Lack of literature, inspiring stories, and awareness programs are other hindering blocks. Yoga- The program can be better conducted if more resources were available at hand. The need for more yoga mats is starkly felt. A spacious auditorium laced with facilities would make the program more successful. Covid-19 - It was a task to quell the fears and myths associated with Covid-19 in the remote, rural areas of Sehore district. It was difficult to mobilize resources - masks, sanitizers, hand washes to be distributed at a large scale to the students, staff and society.

## **BEST PRACTICE - II**

Title of the practice: CLEANLINESS CAMPAIGN  
CLEAN INDIA-CLEAN MP-CLEAN SEHORE

**OBJECTIVE:** - The importance of maintaining cleanliness and adopting hygienic practices as a way of life was highlighted during the covid-19 pandemic. The college realizes the role and responsibility of an institution like ours in not only mitigating the effects of the crisis but also in taking measures to prepare for the future. In the same pursuit, the College aims at cultivating the habit of cleanliness in the students through activities carried out throughout the year. The college believes in taking forward the national call for 'Swachhata' in all its avenues. Many programs at the national level underline the importance of cleanliness and exhort the state governments to follow suit. The college shoulders the responsibility of spreading awareness on the matter among the locals of Sehore district. As many students of the college hail from small villages, they have lesser cognizance of the need of personal and social hygiene.

**CONTEXT:** - The entire country is involved these days in 'Swachha Bharat Mission', so is this institution. Cleanliness is an integral part of the civilized individual's life. Through various activities and programs that are organized throughout the year; the students are made to adopt cleanliness as a way of life- as something integral to their role as citizens of this country. Moreover, one of the fundamental duties enshrined in the Constitution exhorts the citizens to preserve our natural environment. In accordance with the said duty the college aims at instilling this value in the students. It is important to teach the students to discharge their duties in addition to enjoying their rights. Making the students clean the campus and its vicinity is a step in this direction. It guides its students to develop an attitude of caring for their surroundings- lakes, wildlife, rivers, forests, etc.

**THE PRACTICE:** - The students are made to take part in various cleanliness drives all the year round. In these drives, they clean the local river banks and other historical sites in the city. In addition to this, the students and staff also clean the college campus/premises regularly. Every once in a while, the faculty and students perform the task of cleaning the classrooms. The cleaning apparatus- brooms, mop cloth, gloves, garbage bags are distributed to them. Green and blue color dustbins are placed at various corners in the campus so as to easily segregate bio-degradable and non-biodegradable waste. In order to make the students inculcate cleanliness practices, some activities that focus on recycling the discarded materials- 'Best out of Waste' are conducted. So as to make this a regular practice, the students and staff take the 'Oath of Cleanliness' every year.

The rising number of depression and suicide cases among the students and youth is alarming. Taking note of prevailing mental issues among the youth, the institution makes an effort to strengthen the students' mental health through these activities. It is noteworthy to mention that the institution is keen at helping the students cultivate the habit of mental cleansing in tandem with the physical act of cleansing. Regular yoga training programs and meditation session are organized

for the both faculty and students. Some of the primary activities that are undertaken every year are:-

- Cleaning of the local water body- Siwan river. This river is the life line of Sehore's economy and regular cleaning of its banks is important. Our students and faculty- particularly the NSS and NCC units perform the cleaning acts.
- Cleaning of the village adopted by NSS every year. Not only do the students adopt a local village but regularly monitor the areas. The local village communities are made aware of the importance of adopting cleanliness practices.
- Cleaning of the local historical sites. The ancient monuments and sites are frequented by visitors who litter the premises. Our students participate in cleanliness drives at such places and also raise awareness on protecting these sites.
- Cleaning the college campus- The faculty and students register an active participation in cleaning the college campus. The college realizes the importance of teaching its members that cleaning is not a menial task.
- Spreading the message of cleanliness in the streets of the city through nukkad natak (street play).
- Charting out a design/plan of programs to be organized throughout the year.
- Organizing various competitions like- **poster making, essay writing, rangoli making, etc.**
- Organizing rallies to raise awareness on cleanliness.
- Taking the pledge for cleanliness.
- Constituting an Eco Club focusing on environment cleanliness.
- Organizing meditation and yoga sessions for enhancing the purity of the minds.

Dear Professor Ji,

Greetings from Mahatma Gandhi National Council of Rural Education (MGNCRE), Department of Higher Education, Ministry of Education, Government of India!

We are happy to share that the Swachata related activities of your Institution have been highly progressive and motivating and recognized by the Ministry and we appreciate your key role in this national endeavor.

Our Project Associate has met your Collector and District Magistrate with regard to promotion of sustainability in your campus. As per the directions of the Ministry of Education we are promoting Swachhta and Ja! Shakti in the Higher Educational Institutions in the country. We would like to conduct an offline interaction and campus visit for promoting Swachhta and Sustainable Campus initiatives by fixing up a day and time of convenience in the coming weeks.

The areas of experience sharing include aspects of **Swachhta in Campus, Campus Ja! Shakti (Water Conversation in campus), and Sustainable Practices in Campus.**

In this context, we request you to organize this interaction with selected and relevant faculty members, administrative staff, students and other stakeholders of your esteemed institution on the date of mutual convenience. Our Project Associate for Swachhta and Sustainability will visit and conduct Swachhta Action Plan Workshop for the participating faculty members and other stakeholders. All Faculty members and other Stakeholders who participate in the workshop would strive for promoting 1. Greenery 2. Water management 3. Sanitation management 4. Waste management and 5. Energy conservation and solar energy in the Campus.

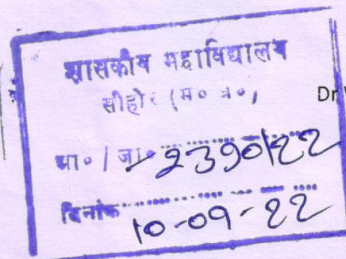

Our Project Associate, ANUP KUMAR DWIVEDI (Mobile No 7073442299., Email ID anupkumardwivedi.mgncre@gmail.com) will be connecting with your office in this regard. He can be reached for all clarifications.

We look forward to your contribution to this national endeavor in promoting sustainable practices in the higher educational institutions.

Thank you.

Yours sincerely

Dr. Norah

किया। प्रभात जाटव ने भी इस  
अवसर पर पर्यावरण संरक्षण व  
स्वच्छता के लिए विद्यार्थियों को  
प्रेरित किया।

**EVIDENCE OF SUCCESS:** - This practice has resulted in a cleaner campus, better environment and in a healthy ambience in and around the college. It is an evident success of the practice that the students have developed a sense of cleanliness- both personal and public. They have realized the importance of maintaining and promoting cleanliness in their immediate rural surroundings. They have started working towards promoting health and hygiene in the lives of people around them. Because of the regular cleaning drives organized at the college with an aim to clean the class rooms and college campus, the staff and students have developed a sense of duty. As cleanliness has become a way of life, the college family is keen at keeping the campus spick and span at all times. The waste is well segregated in separate dustbins for biodegradable and non-biodegradable waste.

**PROBLEMS ENCOUNTERED:** - As the smooth running of every activity is mired with hindrances, so is this cleanliness campaign. Cleaning of the campus and the villages in the vicinity requires cleaning apparatus- mops, broom sticks, gloves, dustpans, phenyl, etc., which sometimes are difficult to arrange and distribute. It is also difficult to arrange funds for the running of the program.
